The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 6-7 and 13 rejected under 35 U.S.C. 102(b) as being anticipated by Lopez et al ('900).

Lopez et al. discloses an actuating device (Fig. 6) for a vehicle clutch comprising a cylinder (7), a radially elastic ring or stop (Col. 12, lines 9-10) mounted on a groove, a piston (6) with a working travel limiting surface, a pressure medium supply passage (3), an elastomeric (see cross hatching MPEP 608.02) damping/scraping device (150), a guide sleeve (5), a guide ring (150), a seal/scrapper (150), and a compression space (defined by member 122) with a variable volume.
